OUR PRINCIPLES

TRUST

Establish relationship with all customers based on strong mutual trust and respect.

QUALITY

At R.B.Tech™, we foster a culture that promotes continuous quality improvement in product by focusing on quality of material as well as continuous upgrading of internal and external processes. We undertake rigorous laboratory tests to ensure that our product is completely safe from the health perspective and fulfills its intended purpose. We use state-of-the-art Korean Technology that ensures that our products are indeed the best.

For us, quality is not just a vague term to be bandied about. Each of our employees takes this aspect seriously and assumes individual responsibility. The impact this has on the quality of our product is tremendous.

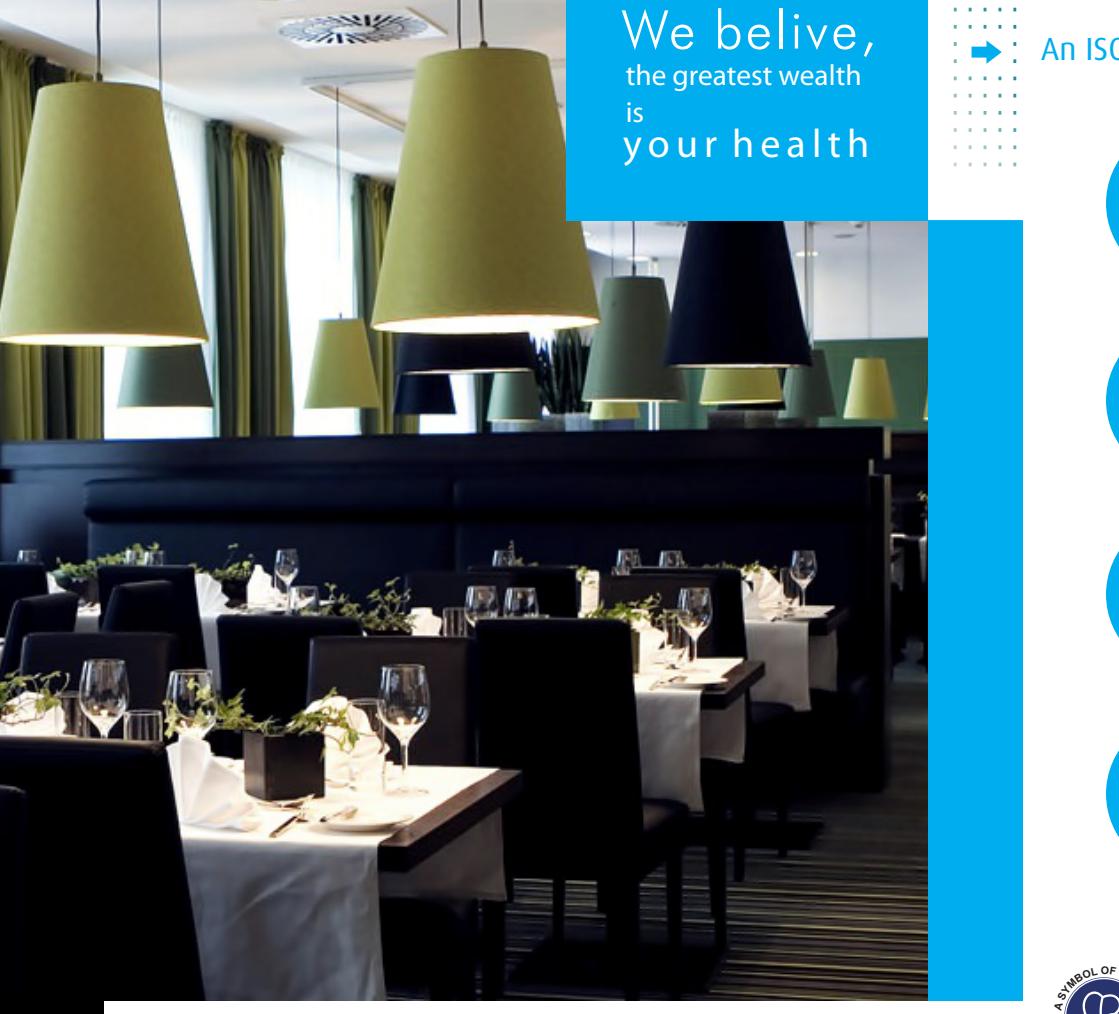

We consider product quality as the means to customer delight. Hence we are totally focused on understanding and exceeding customer expectations.

ETHICS

Honor highly ethical standards in all endeavors. ENVIRONMENT - Respect nature and strive to protect and improve the global.

GROWTH

Assure fair earnings to build a foundation for future growth. MOTIVATING - Developing and motivating our employees who are the source of the strength.

OUR MISSION

Quality and continuous improvement are our basic operating principles. Quality is to understand the requirements of our customers and consistently meeting or exceeding those requirements. At R.B.Tech™ Wet Wipes, Quality is the responsibility of every employee.

We believe,
the greatest wealth
is
your health
